

The enchantment of the past can be relived in the suites, where accurate restoration brought back to light the ancient colours which had been lost over time.

The suites have an astonishing view: the splendid scenery of Como Lake.

The small "blue hall", on the upper floor, is a special place to read or play a game of chess. Breakfast is served in the "Sala dei Trofei", a charming hall with a country appeal.

Moreover, the garden is full of unique and secluded corners: the romantically adorned promenade, a large gazebo in forged iron, a classical staircase which descends from the Relais to the wooden pier for those guests wanting to use the private boat pier. Guests can relax in the sun and swim in the pool, attractively decorated with blue mosaics.

We can book a Riva motorboat, a traditional lake boat ride or a power boat so that you and your guests can enjoy the view from the lake of the surrounding villas, gardens and reach one of the various small beaches. One can also choose to take a tour using a canoe, a hydroplane or a hot air balloon... as they say: the sky's the limit!
